Certificate in Engaging and Unique Curriculum Delivery

Course Overview

This course is designed for teachers, coaches, principals, and other educators who want to make curriculum more interesting for those that they serve. In our world now, we have to ensure to provide content for learners that is not just a "base level" of content that they could get using an online search engine. We have to make sure that the required content is delivered in a way that is exciting, engaging and effective for our learners. We will discuss the application of The Boost Institute's "3 E's" of learning, and how to start to add it into in person and online curriculum development. If you want to be different, better, and unique for your students than this course is for you.

Primary Learning Outcomes

By the completion of this course, participants will be trained in the ability to:

- Apply simple and specific culture building strategies designed to created cohesion and belonging in your learning environment.
- Understand and implement the 3 E's in your curriculum development and classroom in order build new curriculum for maximum learning.
- Understand and implement the 3 E's in your curriculum development and classroom in order adapt current curriculum for maximum learning.
- Understand how using novel strategies for student engagement will decrease classroom management challenges, especially in older learners.
- Examine the reasons why current curriculum isn't meeting the standard of the 3 E's.
- Develop a personal strategy to transform curriculum toward meeting the 3 E standard.

Who Should Take This Course

- Teachers, principals, education assistants, education students, parents.

- Leaders, coaches, and teachers who want to create better performance in their groups by attacking the root learning ability of the group.
